

HEART-CVS PROGRAM

COHORT 3: JULY 27 - OCTOBER 2*

In partnership with CVS Health, The H.E.A.R.T. Program is offering a **FREE** 10-week* retail training program:

Retail & Customer Service Curriculum

You will learn communication skills, how to work in a retail store, how to restock, inventory and stock products, and more. The curriculum will be offered via zoom during the pandemic.

Learn in a CVS “Mock Store” Environment

Phase II of the program will be conducted at our On-Site CVS Mock Store where you will have hands-on training and practice all the skills you've learned. We are following all federal, state, county and city COVID-19 guidelines and we will inform you when your Cohort will be scheduled for the on-site training.

Internship Opportunity in a CVS Store*

This will be the final portion of the training and will be offered after the pandemic.

**Program may be extended after 10-week period due to COVID-19 delay in starting the externship portion on-site.*

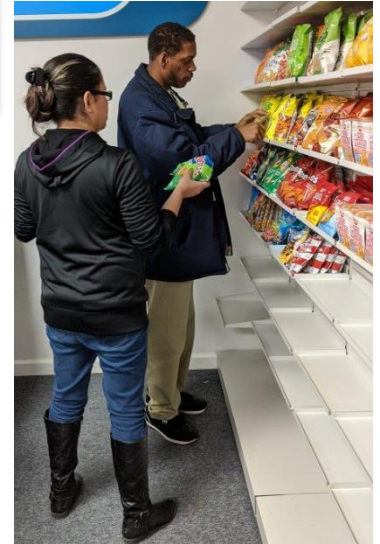

To apply or for more information, contact Glennis McCray:
gmcclay@heartprogram.org or 713-692-4278.

Or visit: www.heartprogram.org/programs/cvs

Application Deadline: July 20, 2020

Here is what we are looking for in participants:

- Ages 18 and up
- Must have an Intellectual/Developmental Disability (diagnosis required)
- Must have access to the internet and a device to participate in daily zoom trainings
- Must be interested in working in a retail store when it is safe to do so
- Must live in the City of Houston limits
- Must have documentation of low-income status
- This program is offered free of charge thanks to Harvey Disaster Recovery funding. You will be asked to provide information about your experience and how you were affected by Hurricane Harvey.
